

DIARY NOTES

ADD/A

10 June 1952

25X1A5a1

[REDACTED]

H

2. [REDACTED] tells me that he will have a report on his transportation study finished by Monday, 16 June.

25X1A9a

3. I agreed to the release of [REDACTED] from O&M in order that he might spend approximately two hours a day with [REDACTED] group to assist them on organization and planning, etc.

25X1A9a

4. [REDACTED] reports that the reason space vacated by OCD has not been occupied is because the incoming people requested certain alterations in the structure which have not been started as yet. Contracts have now been let and the work should be completed within two weeks; the move will take place immediately thereafter. Some of this arrangement involves OCI and, according to [REDACTED] they could not be moved piecemeal.

5. I called Matt Baird's attention to the fact that we were not showing a very great net increase each week in our personnel figures. He said that our personnel procurement situation had deteriorated somewhat since the ceilings were originally imposed and that his people are trying to correct it. However, the figures which we get each week are not entirely accurate because a portion of the number of personnel who are shown as separating themselves from the Agency has actually transferred to the covert side of the Agency. I asked him to revise this report so that it would accurately reflect what is happening.
